Pelham, NY 10803 | (914)-500-5485

EDUCATION

Quinnipiac University, Hamden, CT

Bachelor of Science: Computer Science || **Minor:** Game Design
GPA: 3.71/4.0

PROJECTS

AI-Driven Grid Vacuum Game

- Developed a tile-based simulation in Java featuring autonomous agents and enemy behavior in a 2D grid environment
- Implemented the A* pathfinding algorithm to enable the enemy entities to navigate to target tiles while avoiding obstacles efficiently.
- Designed a hybrid enemy AI system that alternates between deterministic (A*) and stochastic (random) movement patterns to increase unpredictability and gameplay challenge

Student Software Development Group Project

- Programmed various features of an RPG video game, including Audio and World Design, using Java
- Utilized Agile methodologies and Scrum frameworks to manage team tasks, ensuring timely completion of deadlines
- Collaborated with a cross-functional team to problem-solve and ideate new features for the game
- Diligently code reviewed teammates' branches in Git before pulling into the master branch

WORK EXPERIENCE

Pensar | Software Engineer Intern | New York, NY

June 2025 – September 2025

- Built an internal tool to collect data across ~20,000 open-source projects
- Exploited vulnerabilities for research purposes in leading code-generation software
- Backend engineering of internal tools for the founder

Quinnipiac Recreational Center | Rock Climbing Attendant | Hamden, CT

January 2025

- Supervise and assist climbers in a safe and encouraging environment
- Ensure all participants follow safety protocols and proper belaying techniques.
- Monitor participant activity to prevent accidents and respond to emergencies if needed.

HONORS AND ACHIEVEMENTS

- Placed 2nd Overall in Quinnipiac University's 2024 Hackathon
- Placed 4th Overall in Quinnipiac University's 2023 Hackathon
- Dean's List – Spring 2024, Fall 2024, Spring 2025

SKILLS

Leadership, Technical Communication, Collaborative, Problem Solving, Critical Thinking, Organization, Agile Methodologies, Flexible, Java, JavaScript, HTML, C++, C, C#, Object Oriented Programming, Data Structures, Git, GitHub, Version Control, SQL, Databases, MongoDB, AI
